Medicare Part D – Prescriber NPI Requirements

Prescriber Identification Requirements

Effective January 1, 2013, identification of the Prescriber requires a valid and active National Provider Identifier (NPI). Per CMS, all Medicare Part D claims, including controlled substance prescriptions, must be submitted with the Prescriber's valid and active NPI. It is not acceptable, at any time, to utilize an invalid or inactive NPI which does not represent a Prescriber. For pharmacies, it is imperative that the NPI of the Prescriber is checked and verified instead of simply selecting the first number that appears during the Prescriber search.

Claims Submission

There must be a valid and active individual NPI number submitted with each claim. Otherwise, a claim will reject for Invalid Prescriber. An accurate Submission Clarification Code (NCPDP Field # 420-DK) may be submitted to allow a rejected claim to pay.

- **Claims submitted and reimbursed by CVS Caremark® without a valid and active NPI will result in audit review and chargeback**
- Provider must maintain the DEA number on the original hard copy for all controlled substances prescriptions in accordance with State and Federal laws
- The requirement also applies to foreign Prescribers
- Upon submission of an SCC code, the pharmacy is CONFIRMING the validity of that Prescriber to prescribe the drug
- If calling to request a Prior Authorization, the pharmacy understands that the Prescriber Identifier is considered invalid and will be subject to retrospective audit and possible chargeback

PHARMACY STEPS:

In the event a claim rejects for prescriber ID, please review the following steps:

- Verify the ID submitted is a Type 1 NPI.
- For controlled drugs, confirm the Prescriber has a valid DEA and is authorized to prescribe that particular class of drugs

Please note: Only certain SCC codes will be allowed to override each reject code, please see below to help determine valid SCC codes for each reject.

Reject Code	Field #	Code Value	Description
A2,42, 56	420-DK Submission Clarification Code	42	The Prescriber ID submitted has been validated, is active
43, 44	420-DK Submission Clarification Code	43, 45	For the Prescriber ID submitted, associated prescriber DEA Renewed, or In Progress, DEA Authorized Prescriptive Rights. For the Prescriber ID submitted, associated DEA is a valid Hospital DEA with Suffix
46	420-DK Submission Clarification Code	46	For the Prescriber ID submitted and associated prescriber DEA, the DEA has authorized prescriptive rights for this drug DEA Class
619	420-DK Submission Clarification Code	42	The Prescriber ID submitted has been validated, is active.

Therefore, if Provider dispenses the vaccine medication and administers the vaccine to the enrollee, submit both elements on a single claim transaction electronically to CVS Caremark®.

Vaccine Drug Coverage

Please rely on the CVS Caremark® on-line system response to determine Medicare Part D vaccine drug coverage for Medicare Part D plans adjudicating through CVS Caremark®. APPENDIX C: COORDINATION OF BENEFITS (COB)

■ Submission Requirements for COB

Claims that are supplemental to Medicare Part D

For all other primary Medicare Part D plan sponsors that have not implemented Single Transaction Coordination of Benefits (ST COB), the following coordination of benefits information is essential when submitting claims for Medicare Part D Eligible Person:

- If Medicare Part D is the primary coverage, the standard BIN/RXPCN combinations should be used (refer to the CVS Caremark® plan sponsor grid distributed annually in December)
- For supplemental coverage **after** the primary Medicare Part D claim is processed, please use the following BIN/RXPCN combinations:

BIN	Processor Control Number (PCN)	Other Coverage Code
012114	COBPCS COBADV COBCRK	Ø3, Ø8
610468	MD2 MD2FCHP MD2MP	Ø3, Ø8
610502	MEDDAET PARTBAET	Ø3, Ø8
020099	IRXCOBOPPR	Ø3, Ø8
020388	IRXCOBPR	Ø3, Ø8

Note: Claims submitted with the above BIN/PCN combinations must be routed through the TrOOP Facilitator (Relay Health)—do not use lines that are directly connected to CVS Caremark®.

CVS Caremark® will respond back to the pharmacy in the message text fields indicating any other coverage that may apply to Medicare Part D members. Please ensure that pharmacy employees can easily read this information so that supplemental claims can be submitted according to the message instructions.

Only one Medicare Part D claim transaction is allowed per transmission.

■ Single Transaction COB (STCOB)

Medicare Part D Single Transaction Coordination of Benefits

CVS Caremark® has developed a Single Transaction Coordination of Benefits (ST COB) process whereby the pharmacy provider sends one transaction to CVS Caremark® and, the claim adjudicates against both primary and secondary plans before returning one final response to the pharmacy provider with the message “Single Transaction COB Processed Used”. This type of COB is for certain Medicare Part D Plan Sponsors whose benefit is comprised of a group of Eligible Person’s that have a Med D Plan where the primary and secondary benefit are coordinated for the Eligible Person.

Medicare Prescription Payment Plan

Medicare Prescription Payment Plan - Effective January 1st, 2025

On August 16, 2022, H.R. 5376, "Inflation Reduction Act (IRA) of 2022" was signed into law. Within the IRA law there is a new program called Medicare Prescription Payment Plan. Medicare beneficiaries will have an annual out-of-pocket threshold before entering the catastrophic coverage phase, where they will incur \$0 copays. The IRA enables beneficiaries to opt-in to the Medicare Prescription Payment Plan program allowing them to distribute their annual out-of-pocket costs through monthly payments to their Part D plan instead of paying out-of-pocket costs at the pharmacy. Beneficiaries that opt-in will pay \$0 at the pharmacy and get a monthly bill based on what they would have paid for their Part D prescriptions before they enter the catastrophic benefit phase.

CMS has finalized the use of the National Council for Prescription Drug Programs' (NCPDP) Coordination of Benefits (COB) billing process. The Medicare Prescription Payment Plan must use Other Payer-Patient Responsibility COB processing and can only be applied when there is a paid Med D claim; therefore, Medicare Prescription Payment Plan COB processing only supports Other Coverage Code of 8 (Other Coverage Codes 2, 3, and 4 will never be allowed). The pharmacy will be responsible for submitting the Medicare Prescription Payment Plan COB claim to CVS Caremark as the last payer, after any other supplemental Other Health Insurance (OHI) coverages. The Medicare Prescription Payment Plan coverage details will be returned within the last payer occurrence in the Other Payer segment of the Part D claim response.
