

KRx CDHP Drug List with Advanced Control Specialty Formulary®

The **KRx CDHP Drug List with Advanced Control Specialty Formulary®** is a guide within select therapeutic categories for plan members and health care providers. **Generics should be considered the first line of prescribing.** If there is no generic available, there may be more than one brand-name medicine to treat a condition. These preferred brand-name medicines are listed to help identify products that are clinically appropriate and cost-effective. Generics listed in therapeutic categories are for representational purposes only. This is not an all-inclusive list. This list represents brand products in CAPS, branded generics in upper- and lowercase *Italics*, and generic products in lowercase *italics*.

PLAN MEMBER

Your benefit plan provides you with a prescription benefit program administered by CVS Caremark®. Ask your doctor to consider prescribing, when medically appropriate, a preferred medicine from this list. Take this list along when you or a covered family member sees a doctor.

Please note:

- Products recently approved by the U.S. Food and Drug Administration (FDA) may not be covered upon release to the market.
- Your prescription benefit plan design may alter coverage of certain products or vary copay¹ amounts based on the condition being treated.
- You may be responsible for the full cost of non-formulary products that are removed from coverage.
- For specific information regarding your prescription benefit coverage and copay information, please visit [Caremark.com](https://www.caremark.com) or contact a CVS Caremark Customer Care representative.
- CVS Caremark may contact your doctor after receiving your prescription to request consideration of a drug list product or generic equivalent. This may result in your doctor prescribing, when medically appropriate, a different brand-name product or generic equivalent in place of your original prescription.
- In most instances, a brand-name drug for which a generic product becomes available will be designated as a non-preferred option upon release of the generic product to the market.

HEALTH CARE PROVIDER

Your patient is covered under a prescription benefit plan administered by CVS Caremark. As a way to help manage health care costs, authorize generic substitution whenever possible. If you believe a brand-name product is necessary, consider prescribing a brand name on this list.

Please note:

- Generics should be considered the first line of prescribing.
- The member's prescription benefit plan design may alter coverage of certain products or vary copay amounts based on the condition being treated.
- This drug list represents a summary of prescription coverage. It is not all-inclusive and does not guarantee coverage. The member's specific prescription benefit plan design may not cover certain products or categories, regardless of their appearance in this document. Products recently approved by the FDA may not be covered upon release to the market.
- Unless specifically indicated, drug list products will include all dosage forms.
- Log in to [Caremark.com](https://www.caremark.com) to check coverage and copay information for a specific medicine.

YOU PAY:

RETAIL & CVS CAREMARK SPECIALTY PHARMACY

100% of the cost of prescriptions until the annual deductible is met. Once the deductible is met you pay:

Generic (<i>italics</i>) listing:	25% up to a 30-day supply
Preferred Brand (uppercase listing):	25% up to a 30-day supply
Non-preferred Brand (not listed):	25% up to a 30-day supply

MAIL SERVICE

100% of the cost of prescriptions until the annual deductible is met. Once the deductible is met you pay:

Generic (<i>italics</i>) listing:	25% up to a 90-day supply
Preferred Brand (uppercase listing):	25% up to a 90-day supply
Non-preferred Brand (not listed):	25% up to a 90-day supply

Note: You may purchase up to two 30 days supply of a maintenance medication at any in network retail location. After that, your purchase would be declined through KRx if it is not a CVS retail pharmacy or Mail Service (see above). You would be required to pay the full cost of the prescription which would not accumulate toward any deductible or out of pocket amount. You may purchase up to a 90 day supply of short term medications at any in network retail location. You will pay a 20% coinsurance for up to a 90 day supply once the deductible is met. Plan pays 80% after the deductible. CVS Caremark Specialty Pharmacy medications are limited to a 30 day supply.

Annual Deductible -

Individual: \$3000 coordinated with medical (includes expenses at participating and non-participating pharmacies); the deductible applies to OOP Max.

Two-person and Family: \$6000 coordinated with medical (includes expenses at participating and non-participating pharmacies); the deductible applies to OOP Max. The family deductible can be met by one person in the family.

Annual Out of Pocket Maximum -

Individual: \$5400 coordinated with medical (includes expenses at participating and non-participating pharmacies); the deductible applies to OOP Max.

Two-person and Family: \$10800 coordinated with medical (includes expenses at participating and non-participating pharmacies); the deductible applies to OOP Max. The family deductible can be met by one person in the family.

Questions may be directed to a CVS Caremark Customer Care representative at **1-866-KODAKRX (1-866-563-2579)**.

You may be responsible for the full cost of certain non-formulary products that are removed from coverage. Please check with your plan sponsor for more information.

FOR YOUR INFORMATION: Generics should be considered the first line of prescribing. This drug list represents a summary of prescription coverage. It is not all-inclusive and does not guarantee coverage. New-to-market products and new variations of products already in the marketplace will not be added to the formulary immediately. Each product will be evaluated for clinical appropriateness and cost-effectiveness. Recommended additions to the formulary will be presented to the CVS Caremark National Pharmacy and Therapeutics Committee (or other appropriate reviewing body) for review and approval. In most instances, a brand-name drug for which a generic product becomes available will be designated as a non-preferred option upon release of the generic product to the market. Unless specifically indicated, drug list products will include all dosage forms. This list represents brand products in CAPS, branded generics in upper- and lowercase *Italics*, and generic products in lowercase *italics*. Generics listed in therapeutic categories are for representational purposes only. Listed products may be available generically in certain strengths or dosage forms. Dosage forms on this list will be consistent with the category and use where listed. Log in to [Caremark.com](https://www.caremark.com) to check coverage and copay information for a specific medicine.

An exception process may exist for specific clinical or regulatory circumstances that may require coverage of an excluded medication.

Medications for the treatment of infertility have a lifetime limit of \$10,000.

Nutritional Supplements have a \$2,500 limit per year (except for PKU or as sole source nutrition).

§ Generics are available in this class and should be considered the first line of prescribing.

* Drug products are identified by unique numerical product identifiers, called National Drug Codes (NDC), which identify the manufacturer, strength, dosage form, formulation and package size.

** Listing does not include certain NDCs*.

† The preferred options in this list are a broad representation within therapeutic categories of available treatment options and do not necessarily represent clinical equivalency.

1 Copayment, copay or coinsurance means the amount a member is required to pay for a prescription in accordance with a Plan, which may be a deductible, a percentage of the prescription price, a fixed amount or other charge, with the balance, if any, paid by a Plan.

2 An ACCU-CHEK or ONETOUGH blood glucose meter may be provided at no charge by the manufacturer to those individuals currently using a meter other than ACCU-CHEK or ONETOUGH. For more information on how to obtain a blood glucose meter, call: 1-877-418-4746.

3 BD ULTRAFINE syringes and needles are the only preferred options.

4 ACCU-CHEK or ONETOUGH brand test strips are the only preferred options.

5 Generic prenatal vitamins are the only preferred options.

6 Long Acting Insulins - First Generation.

(PA) Indicates that a prior authorization is required.

(QL) Indicates that there is a quantity limit on the amount of medication that may be covered.

(PA)(SP) Indicates that a specialty guideline management review is required.
