

# CalPERS Basic Plan Drug List

The **CalPERS Basic Plan Drug List** contains non-specialty generic and preferred brand drugs for the outpatient prescription drug benefit program administered by CVS Caremark®. The Drug List, which is updated quarterly, is presented in two ways: categorized by therapeutic class, and alphabetical. In the Drug List:

- Generics should be considered the first line of prescribing and have the lowest cost-sharing<sup>1</sup>; they are shown in *lowercase italics*<sup>2</sup>. Not all covered generics are listed. Those listed are examples of what may be prescribed. If a drug class contains a generic, it is marked with the symbol "\$". If no generic is available in a drug class, there may be more than one brand-name drug in that class to treat a condition.
- Generics listed in therapeutic categories are for representational purposes only. Listed products may be available generically in certain strengths or dosage forms. Dosage forms on this list will be consistent with the FDA-approved labeling and use where listed.
- Preferred brand drugs are in CAPS. These are the member's most cost-effective brand-name drugs, but have higher cost-sharing than generic drugs.

The Drug List may not include:

- Products recently approved by the U.S. Food and Drug Administration (FDA). New-to-market products and new variations of products already in the marketplace may not be added to the formulary until the product has been evaluated, determined to be clinically appropriate and cost-effective, and approved by the CVS Caremark Pharmacy and Therapeutics Committee (consisting of medical experts who are not CVS Caremark employees) or other appropriate reviewing body.

The Drug List does not include:

- Excluded drugs. Please refer to "Preferred Options For Excluded And Non-Preferred Drugs" toward the end of this document. Please see the separate "Medications Requiring Prior Authorization" document for the complete list of non-specialty excluded drugs.
- Non-preferred brand drugs, many of which are covered but will have higher cost-sharing. Please refer to "Preferred Options For Excluded And Non-Preferred Drugs" toward the end of this document. **In most instances, a brand-name drug will be designated as a non-preferred option when an equivalent generic product is released to the market.**
- Specialty drugs for complex health conditions. For specialty drugs, please see the separate "Advanced Control Specialty Formulary" document.

Please note that the Drug List is not all-inclusive and does not guarantee coverage. Prescription drugs with over-the-counter equivalents may not be covered by the plan. Drugs listed may be subject to utilization management, such as prior authorization, step therapy, and quantity limits. For specific information regarding prescription coverage and cost-sharing, please visit [www.caremark.com/calpers](http://www.caremark.com/calpers) or contact a CVS Caremark Customer Care representative for CalPERS members at 1-877-542-0284.

## PLAN MEMBER

- Please take this list with you when you or a covered family member sees a doctor or other health care provider.
- Please ask your provider to consider prescribing, when medically appropriate, a generic or preferred medicine from this list.
- After receiving your prescription, CVS Caremark may contact your provider to request consideration of a preferred brand product or a generic alternative. This may result in your doctor prescribing, when medically appropriate, a different product in place of your original prescription.

## HEALTH CARE PROVIDER

- As a way to help manage health care costs while maintaining quality, please prescribe generic drugs or authorize generic substitution whenever possible.
- If you believe a brand-name product is necessary, please consider prescribing a preferred brand from this list.
- Unless specifically indicated, drug list products will include all dosage forms.

<sup>1</sup> *Cost-sharing* is the share of costs covered by your insurance that you pay out of your own pocket. This term includes *copayments* (a fixed amount which CalPERS members pay for many drugs) and *coinsurance* (a percentage of the cost, which CalPERS members pay for certain drugs).

<sup>2</sup> A "branded generic" drug is a brand name drug that has the lower cost-sharing of a generic drug. Any such "branded generic" drug will be listed in *lowercase italics* but with the first letter capitalized.

<sup>3</sup> The Drug List does not include generic CARDIZEM LA.

<sup>4</sup> ONETOUCH brand test strips are the only preferred test strips for blood glucose testing in members with diabetes. The manufacturer may provide a ONETOUCH blood glucose meter at no charge to individuals who are currently using a meter other than ONETOUCH. For more information on how to obtain a free ONETOUCH meter, call 1-800-588-4456.

<sup>5</sup> The preferred options in the right column include available treatments that have been determined to be clinically appropriate, cost-effective, and approved by the CVS Caremark Pharmacy and Therapeutics Committee (or other appropriate reviewing body). The preferred options are not necessarily clinically equivalent to the excluded and non-preferred drugs in the left column.

<sup>6</sup> The Drug List includes the authorized generics for TESTIM and VOGELXO.
