

# **FEP Blue Focus Medicare Prescription Drug Program (MPDP)**

## **2025 Formulary**

### **List of Covered Drugs or “Drug List”**

**PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION  
ABOUT THE DRUGS WE COVER IN THIS PLAN**

HPMS Approved Formulary File Submission ID: 25193

This formulary was updated on 03/14/2025. For more recent information or other questions, please contact us, FEP Medicare Prescription Drug Program Customer Care at 888-338-7737 (TTY users should call 711), or visit [www.fepblue.org/medicarerx](http://www.fepblue.org/medicarerx).

**Note to existing members:** This Formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

When this Drug List (Formulary) refers to “we,” “us,” or “our,” it means FEP Medicare Prescription Drug Program. When it refers to “plan” or “our plan,” it means FEP Blue Focus Medicare Prescription Drug Program (MPDP).

This document includes an updated Drug List (formulary), which is current as of March 14, 2025. For an updated formulary, please contact us. Our contact information, along with the date we last updated the Drug List (formulary), appears on the front and back cover pages.

You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, and/or copayments/coinsurance may change on January 1, 2025, and from time to time during the year.

### **What is the FEP Blue Focus Medicare Prescription Drug Program (MPDP) Formulary?**

In this document, we use the terms Drug List and formulary to mean the same thing. A formulary is a list of covered drugs selected by FEP Blue Focus Medicare Prescription Drug Program (MPDP) in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. FEP Blue Focus Medicare Prescription Drug Program (MPDP) will generally cover the drugs listed in our formulary as long as the drug is medically

necessary, the prescription is filled at a FEP Blue Focus Medicare Prescription Drug Program (MPDP) network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your Evidence of Coverage.

## **Can the Formulary (drug list) change?**

Most changes in drug coverage happen on January 1, but we may add or remove drugs on the formulary during the year, move them to different cost-sharing tiers, or add new restrictions. We must follow the Medicare rules in making these changes. Updates to the formulary are posted monthly to our website here: [www.fepblue.org/medicarerx](http://www.fepblue.org/medicarerx).

**Changes that can affect you this year:** In the below cases, you will be affected by coverage changes during the year:

- **Immediate substitutions of certain new versions of brand name drugs and original biological products.** We may immediately remove a drug from our formulary if we are replacing it with a certain new version of that drug that will appear on the same or lower cost-sharing tier and with the same or fewer restrictions. When we add a new version of a drug to our formulary, we may decide to keep the brand name drug or original biological product on our formulary, but immediately move it to a different cost-sharing tier or add new restrictions.

We can make these immediate changes only if we are adding a new generic version of a brand name drug, or adding certain new biosimilar versions of an original biological product, that was already on the formulary (for example, adding an interchangeable biosimilar that can be substituted for an original biological product by a pharmacy without a new prescription).

If you are currently taking the brand name drug or original biological product, we may not tell you in advance before we make an immediate change, but we will later provide you with information about the specific change(s) we have made.

If we make such a change, you or your prescriber can ask us to make an exception and continue to cover for you the drug that is being changed. For more information, see the section below titled “How do I request an exception to the FEP Blue Focus Medicare Prescription Drug Program (MPDP)’s Formulary?”

Some of these drug types may be new to you. For more information, see the section below titled “What are original biological products and how are they related to biosimilars?”

- **Drugs removed from the market.** If a drug is withdrawn from sale by the manufacturer or the Food and Drug Administration (FDA) determines to be withdrawn for safety or effectiveness reasons, we may immediately remove the drug from our formulary and later provide notice to members who take the drug.
- **Other changes.** We may make other changes that affect members currently taking a drug. For instance, we may add a new generic drug to replace a brand-name drug currently on the formulary, or add a new biosimilar to replace an original biological product currently on the formulary, or add new restrictions or move a drug we are keeping on the formulary to a higher cost-sharing tier or both after we add a corresponding drug. We may make changes based on new clinical guidelines. If we remove drugs from our formulary, add prior authorization, quantity limits and/or step therapy restrictions on a drug, or move a drug to a higher cost-sharing tier, we must notify affected members of the change at least 30 days before the

change becomes effective. Alternatively, when a member requests a refill of the drug, they may receive a 30 day supply of the drug and notice of change.

If we make these other changes, you or your prescriber can ask us to make an exception for you and continue to cover the drug you have been taking. The notice we provide you will also include information on how to request an exception, and you can also find information in the section below entitled “How do I request an exception to the FEP Blue Focus Medicare Prescription Drug Program (MPDP) Formulary?”

**Changes that will not affect you if you are currently taking the drug.** Generally, if you are taking a drug on our 2025 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2025 coverage year except as described above. This means these drugs will remain available at the same cost-sharing and with no new restrictions for those members taking them for the remainder of the coverage year. You will not get direct notice this year about changes that do not affect you. However, on January 1 of the next year, such changes would affect you, and it is important to check the formulary for the new benefit year for any changes to drugs.

The enclosed formulary is current as of 03/14/2025. To get updated information about the drugs covered by FEP Blue Focus Medicare Prescription Drug Program (MPDP) please contact us. Our contact information appears on the front and back cover pages.

## **How do I use the Formulary?**

There are two ways to find your drug within the formulary:

### **Medical Condition**

The formulary begins on page 1. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, Cardiovascular. If you know what your drug is used for, look for the category name in the list that begins on page 1. Then look under the category name for your drug.

### **Alphabetical Listing**

If you are not sure what category to look under, you should look for your drug in the Index at the back of the formulary document. The Index provides an alphabetical list of all of the drugs included in this document. Both brand-name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

## **What are generic drugs?**

FEP Blue Focus Medicare Prescription Drug Program (MPDP) covers both brand-name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand-name drug. Generally, generic drugs work just as well as and usually cost less than brand name drugs. There are generic drug substitutes available for many brand name drugs. Generic drugs usually

can be substituted for the brand name drug at the pharmacy without needing a new prescription, depending on state laws.

## **What are original biological products and how are they related to biosimilars?**

On the formulary, when we refer to drugs, this could mean a drug or a biological product. Biological products are drugs that are more complex than typical drugs. Since biological products are more complex than typical drugs, instead of having a generic form, they have alternatives that are called biosimilars. Generally, biosimilars work just as well as the original biological product and may cost less. There are biosimilar alternatives for some original biological products. Some biosimilars are interchangeable biosimilars and, depending on state laws, may be substituted for the original biological product at the pharmacy without needing a new prescription, just like generic drugs can be substituted for brand name drugs.

- For discussion of drug types, please see the Evidence of Coverage, Chapter 3, Section 3.1, “The ‘Drug List’ tells which Part D drugs are covered.”

## **Are there any restrictions on my coverage?**

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** FEP Blue Focus Medicare Prescription Drug Program (MPDP) requires you or your prescriber to get prior authorization for certain drugs. This means that you will need to get approval from FEP Blue Focus Medicare Prescription Drug Program (MPDP) before you fill your prescriptions. If you don't get approval, FEP Blue Focus Medicare Prescription Drug Program (MPDP) may not cover the drug.
- **Quantity Limits:** For certain drugs, FEP Blue Focus Medicare Prescription Drug Program (MPDP) limits the amount of the drug that FEP Blue Focus Medicare Prescription Drug Program (MPDP) will cover. For example, FEP Blue Focus Medicare Prescription Drug Program (MPDP) provides 30 tablets per 30-day prescription for atorvastatin 80 mg tablet. This may be in addition to a standard one-month or three-month supply.
- **Step Therapy:** In some cases, FEP Blue Focus Medicare Prescription Drug Program (MPDP) requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, FEP Blue Focus Medicare Prescription Drug Program (MPDP) may not cover Drug B unless you try Drug A first. If Drug A does not work for you, FEP Blue Focus Medicare Prescription Drug Program (MPDP) will then cover Drug B.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 1. You can also get more information about the restrictions applied to specific covered drugs by visiting our website. We have posted online documents that explain our prior authorization and step therapy restrictions. You may also ask us to send you a copy. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You can ask FEP Blue Focus Medicare Prescription Drug Program (MPDP) to make an exception to these restrictions or limits or for a list of other, similar drugs that may treat your health condition. See

the section, “How do I request an exception to the FEP Blue Focus Medicare Prescription Drug Program (MPDP)’s formulary?” on page V for information about how to request an exception.

## **What if my drug is not on the Formulary?**

If your drug is not included in this formulary (list of covered drugs), you should first contact Customer Care and ask if your drug is covered. For more information, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

If you learn that FEP Blue Focus Medicare Prescription Drug Program (MPDP) does not cover your drug, you have two options:

- You can ask Customer Care for a list of similar drugs that are covered by FEP Blue Focus Medicare Prescription Drug Program (MPDP). When you receive the list, show it to your doctor and ask them to prescribe a similar drug that is covered by FEP Blue Focus Medicare Prescription Drug Program (MPDP).
- You can ask FEP Blue Focus Medicare Prescription Drug Program (MPDP) to make an exception and cover your drug. See below for information about how to request an exception.

## **How do I request an exception to the FEP Blue Focus Medicare Prescription Drug Program (MPDP)’s Formulary?**

You can ask FEP Blue Focus Medicare Prescription Drug Program (MPDP) to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover a drug even if it is not on our formulary. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.
- You can ask us to waive a coverage restriction including prior authorization, step therapy, or a quantity limit on your drug. For example, for certain drugs, FEP Blue Focus Medicare Prescription Drug Program (MPDP) limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.
- You can ask us to cover a formulary drug at a lower cost-sharing level unless the drug is on the specialty tier. If approved, this would lower the amount you must pay for your drug.

Generally, FEP Blue Focus Medicare Prescription Drug Program (MPDP) will only approve your request for an exception if the alternative drugs included on the plan’s formulary, the lower cost-sharing drug, or applying the restriction would not be as effective for you and/or would cause you to have adverse effects.

You or your prescriber should contact us to ask us for a tiering, or formulary exception, including an exception to a coverage restriction. **When you request an exception your prescriber will need to explain the medical reasons why you need the exception.** Generally, we must make our decision within 72 hours of getting your prescriber’s supporting statement. You can ask for an expedited (fast) decision if you believe, and we agree, that your health could be seriously harmed by waiting up to 72 hours for a decision. If we agree, or if your prescriber asks for a fast decision, we must give you a decision no later than 24 hours after we get your prescriber’s supporting statement.

## **What can I do if my drug is not on the formulary or has a restriction?**

As a new or continuing member in our plan you may be taking drugs that are not on our formulary. Or, you may be taking a drug that is on our formulary but has a coverage restriction, such as prior authorization. You should talk to your prescriber about requesting a coverage decision to show that you meet the criteria for approval, switching to an alternative drug that we cover, or requesting a formulary exception so that we will cover the drug you take. While you and your doctor determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your drugs that is not on our formulary or has a coverage restriction, we will cover a temporary 30-day supply. If your prescription is written for fewer days, we'll allow refills to provide up to a maximum 30-day supply of medication. If coverage is not approved, after your first 30-day supply, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

If you are a resident of a long-term care facility and you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 31-day emergency supply of that drug while you pursue a formulary exception.

## **The plan has four Cost-Sharing Tiers**

Every drug on the plan's drug list is in one of four cost-sharing tiers as listed in the table below.

<b>Tier 1</b>	Generic Drug
<b>Tier 2</b>	Preferred Brand Drug
<b>Tier 3</b>	Non-Preferred Drug
<b>Tier 4</b>	Specialty Tier

To find out which cost-sharing tier your drug is in, look it up in the plan's drug list that begins on page 1.

## **For more information**

For more detailed information about your FEP Blue Focus Medicare Prescription Drug Program (MPDP) prescription drug coverage, please review your Evidence of Coverage and other plan materials.

If you have questions about FEP Blue Focus Medicare Prescription Drug Program (MPDP), please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

If you have general questions about Medicare prescription drug coverage, please call Medicare at 1-800-MEDICARE (1-800-633-4227) 24 hours a day/7 days a week. TTY users should call 1-877-486-2048. Or, visit <http://www.medicare.gov>.

## **FEP Blue Focus Medicare Prescription Drug Program (MPDP) Formulary**

The formulary that begins on the next page provides coverage information about the drugs covered by FEP Blue Focus Medicare Prescription Drug Program (MPDP). If you have trouble finding your drug in the list, turn to the Index at the back of the formulary document.

The first column of the chart lists the drug name. Brand-name drugs are capitalized (e.g., DIOVAN) and generic drugs are listed in lower-case italics (e.g., *valsartan*).

The information in the Requirements/Limits column tells you if FEP Blue Focus Medicare Prescription Drug Program (MPDP) has any special requirements for coverage of your drug. The table below describes the symbols and abbreviations used in the Requirements/Limits column.

<b>B/D</b>	The drug listed can be covered by Medicare Part B or Medicare Part D. This is determined on case-by-case basis depending on what the drug is used for and how it is administered.
<b>PA</b>	Prior Authorization (approval): you must have approval from the plan before you can get this drug
<b>QL</b>	Quantity Limit: there is a limit to how much of the medicine we will cover
<b>ST</b>	Step Therapy: you must try another drug before you can get this one

# FEP Blue Focus Medicare Prescription Drug Program (MPDP)

## 2025 Enhanced Formulary

This formulary was updated on March 14, 2025. For more recent information or other questions, please contact us, The FEP Medicare Prescription Drug Program (MPDP) Customer Care at 888-338-7737 (TTY users should call 711) or visit [www.fepblue.org/medicarerx](http://www.fepblue.org/medicarerx).

When this Drug List (Formulary) refers to “we,” “us,” or “our,” it means FEP Medicare Prescription Drug Program. When it refers to “plan” or “our plan,” it means FEP Blue Focus Medicare Prescription Drug Program (MPDP).

**Introduction:** FEP Blue Focus Medicare Prescription Drug Program (MPDP) Enhanced Formulary is a useful reference for drug product selection. FEP Blue Focus Medicare Prescription Drug Program (MPDP) Enhanced Formulary has been reviewed by the FEP Pharmacy and Medical Policy Committee and FEP physicians and pharmacists and found appropriate for preferred status.

FEP Blue Focus Medicare Prescription Drug Program (MPDP) Enhanced Formulary is provided as a reference for drug therapy selection. Specific drug selection for an individual patient rests solely with the prescriber.

**Preface:** The formulary is organized by sections, which refer to either a drug class or disease state. Unless exceptions are noted, all dosage forms and strengths of the drug cited are included in the formulary.

FEP Medicare Prescription Drug Program may impose restrictions or not reimburse for specific drug products or types of products. For example, certain drugs and supplies for hair removal and hair growth are excluded from the pharmacy benefit. In addition, over-the-counter (OTC) products, with the exception of diabetes monitoring products, are generally not included in the pharmacy benefit. Some OTC products are listed in the formulary for informational purposes only.

The formulary is separated by Tiers in the following manner:

<b>Tier 1</b>	Generic Drug
<b>Tier 2</b>	Preferred Brand Drug
<b>Tier 3</b>	Non-Preferred Drug
<b>Tier 4</b>	Specialty Tier

All drugs that are preferred are noted in their respective tiers of the drug lists throughout this formulary. Drugs may be reviewed by the FEP Pharmacy and Medical Policy Committee and designated non-preferred. FEP Medicare Prescription Drug Program may designate certain drugs as non-preferred, typically if the cost-effectiveness is less than other similar drugs.

**Restrictions to coverage:** Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** FEP Blue Focus Medicare Prescription Drug Program (MPDP) requires you or your prescriber to get prior authorization for certain drugs. This means that you will need to get approval from FEP Blue Focus Medicare Prescription Drug Program (MPDP) before you fill your prescriptions. If you don't get approval, the plan may not cover the drug.
- **Quantity Limits:** For certain drugs, FEP Blue Focus Medicare Prescription Drug Program (MPDP) limits the amount of the drug that the plan will cover.
- **Step Therapy:** In some cases, FEP Blue Focus Medicare Prescription Drug Program (MPDP) requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, FEP Blue Focus Medicare Prescription Drug Program (MPDP) may not cover Drug B unless you try Drug A first. If Drug A does not work for you, the plan will then cover Drug B.

**Pharmacy And Medical Policy Committee:** The role of the FEP Pharmacy and Medical Policy Committee includes evaluating new medications and making recommendations for the designation of preferred or non-preferred status on FEP Blue Focus Medicare Prescription Drug Program (MPDP) Enhanced Formulary. The FEP Pharmacy and Medical Policy Committee is made up of physicians and pharmacists who are not employees or agents of, nor have financial interest in FEP.

**Product Selection Criteria:** The FEP Pharmacy and Medical Policy Committee will consider U.S. Food and Drug Administration (FDA) approved drugs for preferred status designation. The evaluation includes a literature review; expert opinion may also be sought. Formal reviews are prepared that typically address the following information:

- Safety
- Efficacy
- Comparison studies
- Drug interactions
- Approved indications
- Formulation and administration
- Adverse effects
- Contraindications
- Pharmacokinetics
- Patient compliance considerations
- Medical outcome and pharmacoeconomic studies

When a new drug is considered for preferred status, an attempt will be made to examine the drug relative to similar drugs currently preferred. In addition, entire therapeutic classes are periodically reviewed. The class review process may result in a designation of non-preferred status to drug(s) in a particular therapeutic class, in an effort to continually promote the most clinically useful and cost-effective agents.

Drugs evaluated by the Pharmacy and Medical Policy Committee and not classified as preferred receive a non-preferred designation on FEP Blue Focus Medicare Prescription Drug Program (MPDP) Enhanced Formulary. This designation indicates the Pharmacy and Medical Policy Committee's belief that the drug offers no important clinical or cost advantage over comparable preferred drugs, or that there is currently insufficient information to determine its appropriate clinical role, or that questions remain regarding safety and effectiveness. Non-preferred drugs may be covered under FEP Blue Focus Medicare Prescription Drug Program (MPDP) Enhanced Formulary. However, there may be additional costs incurred by the patient to receive a non-preferred medication. Physicians are encouraged to prescribe preferred drugs.

All the information in FEP Blue Focus Medicare Prescription Drug Program (MPDP) Enhanced Formulary is provided as a reference for drug therapy selection. The final choice of a specific drug selection for an individual patient rests solely with the prescriber.

**Generic Substitution:** One way to reduce out-of-pocket cost is by requesting a generic drug. Generic drugs are usually priced lower than their brand-name equivalents. Prescription generic drugs are:

- Approved by the FDA for safety and effectiveness and are manufactured under the same strict standards that apply to brand-name drugs.
- Tested in humans to assure the generic is absorbed into the bloodstream in a similar rate and to the same extent as the brand-name drug. Generics may be different from the brand in size, color,

- and inactive ingredients, but this does not alter their effectiveness or ability to be absorbed just like the brand-name drug.
- Manufactured in the same strength and dosage form as the brand-name drugs.

When a generic drug is substituted for a brand-name drug, you can expect the generic to produce the same clinical effect and safety profile as the brand-name drug.

**Editor:** Your comments and suggestions regarding this FEP Blue Focus Medicare Prescription Drug Program (MPDP) Enhanced Formulary are encouraged. Your input is vital to this formulary's continued success. All responses will be reviewed and considered. Please send your comments to:
