

## 2022 Service Benefit Plan Specialty Pharmacy Drug List

If you are a member or healthcare provider and have specialty drug-specific questions, please call the Specialty Pharmacy Program at 1- 888-346-3731 weekdays from 7 a.m. to 9 p.m. or weekends from 8 a.m. to 6:30 p.m. Eastern time. You can also visit [fepblue.org/pharmacy](http://fepblue.org/pharmacy).

Specialty drugs are prescribed to treat complex conditions such as multiple sclerosis, hemophilia, hepatitis C and rheumatoid arthritis. These high-cost drugs also have one or more of the following traits: they are injected or infused (but some may be taken by mouth); they have unique storage or shipment needs; more education and support are needed to help you use the drugs properly, and they are usually not stocked at retail pharmacies.

The Blue Cross and Blue Shield Service Benefit Plan maintains a list of specialty prescription drugs. Coverage of and out-of-pocket costs for drugs on this list may be different under Standard Option, Basic Option, and FEP Blue Focus. Please select your plan, using the Drug Cost Tool, to confirm your coverage and cost information. This is not an all-inclusive list and is subject to change without notice. Changes may appear prior to their effective date.

Brand name products are listed in CAPS and generic products are listed in *italics*. Drugs with an asterisk (\*) require **Prior Authorization**.

| <b>A</b>                             |                                    | <b>B</b>                          |                                   |                                   |

## Limited Distribution Drug List

Due to manufacturer restrictions, a small number of specialty drugs used to treat rare or uncommon conditions may be available only through specific Preferred retail pharmacies and are referred to as Limited Distribution Drugs. The following list of Limited Distribution Specialty drugs are not available through CVS Specialty however they may be obtained through a specific Preferred retail pharmacy. The Specialty Drug Pharmacy Program copayments will apply to these medications. Please contact the Specialty Pharmacy Program at 1-888-346-3731 for assistance with finding the appropriate pharmacy.
