Comments: _____

Please circle the appropriate answer for each question.

1. The patient's drug benefit plan provides coverage for other drugs which may be considered for treating your patient. Can your patient's treatment be switched to a formulary drug? Y N

   [If yes, provide your patient with a new prescription for the formulary product.]
   Available Formulary Alternatives: TRULICITY, VICTOZA

2. Is the requested drug being used for an FDA-Approved indication OR an indication supported in the compendia of current literature (examples: AHFS, Micromedex, current accepted guidelines)? Y N

3.	Does the prescribed dose and quantity fall within the FDA approved labeling or within dosing guidelines found in the compendia of current literature?	Y N
4.	Has the patient tried and had an inadequate treatment response or intolerance to the required number of formulary alternatives below [If yes, then documentation is required for approval.] Drug Name Reason for Failure	Y N
	[For internal use only, will not be printed on fax forms - PA Admin to enter required formulary alternatives: 3 in a class with 3 or more alternatives, 2 in a class with 2 alternatives, or 1 in a class with only 1 alternative. If the requested drug is a combination product, at least 1 of the alternatives tried must be the 2 separate individual components taken concurrently (when both are on formulary) plus the remaining required number of alternatives. For products requested based on dosage form, all similar formulary dosage forms should be tried (e.g., insulin pre-filled syringes or pen devices).] Note: Formulary Alternatives should be prescribed first unless the patient is unable to use or receive treatment with the alternative. Required Formulary Alternatives: 2 in a class with 2 alternatives, TRULICITY, VICTOZA	
	[If yes, no further questions.]	
5.	Does the patient have a contraindication to all the alternatives?	Y N

I affirm that the information given on this form is true and accurate as of this date.
