This CVS Caremark Count on Generics® Drug List is a guide within select therapeutic categories for clients, plan participants and health care providers. Generics listed in therapeutic categories are for representational purposes only. This is not an all-inclusive list. Generics should be considered the first line of prescribing.

* This document contains references to brand-name prescription drugs that are trademarks or registered trademarks of pharmaceutical manufacturers not affiliated with CVS Caremark.

† Generics listed here may not be available in all strengths or dosage forms compared with the listed brand-name product. Ask your doctor or pharmacist for more information.

‡ This list indicates the common uses for which the drug is prescribed. Some medicines are prescribed for more than one condition. Please discuss all treatments with your doctor.
