

Growth Hormone

HMSA - Prior Authorization Request

CVS Caremark administers the prescription benefit plan for the patient identified. This patient's benefit plan requires prior authorization for certain medications in order for the drug to be covered. To make an appropriate determination, providing the most accurate diagnosis for the use of the prescribed medication is necessary. **Please respond below and fax this form to CVS Caremark toll-free at 1-866-237-5512.** If you have questions regarding the prior authorization, please contact CVS Caremark at **1-808-254-4414**. For inquiries or questions related to the patient's eligibility, drug copay or medication delivery; please contact the Specialty Customer Care Team: CaremarkConnect® 1-800-237-2767.

The recipient of this fax may make a request to opt-out of receiving telemarketing fax transmissions from CVS Caremark. There are numerous ways you may opt-out: The recipient may call the toll-free number at 877-265-2711, at any time, 24 hours a day/7 days a week. The recipient may also send an opt-out request via email to do_not_call@cvscaremark.com. An opt out request is only valid if it (1) identifies the number to which the request relates, and (2) if the person/entity making the request does not, subsequent to the request, provide express invitation or permission to CVS Caremark to send facsimile advertisements to such person/entity at that particular number. CVS Caremark is required by law to honor an opt-out request within thirty days of receipt.

Patient's Name: _____ **Date:** _____
Patient's ID: _____ **Patient's Date of Birth:** _____
Patient's Phone Number: _____
Physician's Name: _____
Specialty: _____ **NPI#:** _____
Physician Office Telephone: _____ **Physician Office Fax:** _____

Approvals may be subject to dosing limits in accordance with FDA-approved labeling, accepted compendia, and/or evidence-based practice guidelines.

Additional Demographic Information:

Patient Weight: _____ *kg*
Patient Height: _____ *ft* _____ *inches*

Criteria Questions:

Indicate where the drug is being dispensed:

- Office Outpatient Hospital Ambulatory Surgical Inpatient Hospital
- Off Campus Outpatient Hospital Urgent Care Emergency Room Birthing Center
- Military Facility Skilled Nursing Facility Nursing Facility Hospice
- Inpatient Psychiatric Psychiatric Residential Treatment End Stage Renal Facility
- Psychiatric Facility Pharmacy Other

Indicate where the drug is being administered:

- Ambulatory surgical Home Inpatient Hospital
- Office Outpatient Hospital Pharmacy

What is the ICD-10 code? _____

1. What is the prescribed drug?

- Genotropin, *Continue to #2*
- Humatrope, *Continue to #2*
- Norditropin, *Continue to #100*
- Nutropin/Nutropin AQ, *Continue to #100*
- Omnitrope, *Continue to #2*
- Saizen, *Continue to #2*

- Serostim, *Continue to #100*
- Zomacton, *Continue to #2*
- Zorbtive, *Continue to #2*

2. The preferred products for HMSA are Norditropin, Nutropin/Nutropin AQ and Serostim. Can the patient's treatment be switched to one of the preferred products? If yes, please fax a new prescription to _____

- Yes, *Continue to #100*
- No, *Continue to #3*

3. Is the requested drug Humatrope or Zomacton?

- Yes, *Continue to #4*
- No, *Continue to #5*

4. Is the diagnosis short stature homeobox-containing gene deficiency (SHOXD)?

- Yes, *Continue to #100*
- No, *Continue to #100*

5. Is the requested drug Zorbtive?

- Yes, *Continue to #6*
- No, *Continue to #7*

6. Is the diagnosis short bowel syndrome (SBS)?

- Yes, *Continue to #100*
- No, *Continue to #100*

7. Has the patient tried and experienced a documented inadequate response or intolerable adverse event to the preferred products, Norditropin and Nutropin/Nutropin AQ? ***ACTION REQUIRED: If yes, please submit supporting documentation.***

- Yes, *Continue to #100*
- No, *Continue to #100*

100. What is the diagnosis?

- Pediatric growth hormone (GH) deficiency, *Continue to #200*
- Idiopathic short stature (ISS), *Continue to #300*
- Small for gestational age (SGA), *Continue to #350*
- Turner syndrome (TS), *Continue to #400*
- Noonan syndrome (NS), *Continue to #400*
- Prader Willi syndrome (PWS), *Continue to #400*
- SHOX deficiency (SHOXD), *Continue to #400*
- Pediatric chronic kidney disease (CKD), *Continue to #500*
- Adult GH deficiency, *Continue to #700*
- HIV-associated wasting/cachexia, *Continue to #800*
- Short bowel syndrome (SBS), *Continue to #900*
- Treatment of extensive burns, *Continue to #1000*
- Other, *Continue to #102*

102. Is the requested drug being prescribed for in-vitro fertilization use?

Send completed form to: CVS Caremark Specialty Programs. Fax: 1-866-237-5512

Phone: 1-808-254-4414 • Fax: 1-866-237-5512 • www.caremark.com

- Yes, *No Further Questions*
- No, *No Further Questions*

200. Is this request for a new start, restart (re-initiation), or continuation of GH therapy?

- New start, *Continue to #202*
- Restart, *Continue to #202*
- Continuation, *Continue to #201*

201. Was GH therapy previously authorized by HMSA/CVS for this member?

- Yes, *Continue to #600*
- No, *Continue to #202*
- Unknown, *Continue to #202*

202. Did the member have a GH response of < 10 ng/mL (or otherwise abnormal as determined by the lab) to at least 2 GH stimulation tests? **ACTION REQUIRED: Please submit results of GH stim tests.**

- Yes, *Continue to #209*
- No, *Continue to #203*

203. Did the member have a GH response of < 10 ng/mL to at least one GH stimulation test? **ACTION REQUIRED: Please submit results of GH stim tests.**

- Yes, *Continue to #204*
- No, *Continue to #205*

204. Does the member have a defined CNS pathology, history of cranial irradiation or a genetic condition associated with GH deficiency?

- Yes →Go to #209
- No, *Continue to #206*

205. Did the member have a GH response of < 15 ng/mL to at least one GH stimulation test? **ACTION REQUIRED: Please submit results of GH stim tests.**

- Yes, *Continue to #206*
- No, *Continue to #207*

206. Does the member have both IGF-1 and IGFBP-3 levels below normal for age and gender? **ACTION REQUIRED: Please submit lab results.**

- Yes, *Continue to #209*
- No, *Continue to #207*

207. Does the member have 2 or more documented pituitary hormone deficiencies other than GH?

- Yes, *Continue to #209*
- No, *Continue to #208*

208. Did the member have an abnormally low GH level in association with neonatal hypoglycemia? **ACTION REQUIRED: Please submit lab results.**

- Yes, *Continue to #209*
- No, *Continue to #209*

209. Is the member's pretreatment height ≥ 2 SD below the mean for age and gender? **ACTION REQUIRED: Please submit growth chart.**
