

2019 Preferred Drug List for Georgia State Health Benefit Plan (SHBP)

Administered by CVS Caremark®

The **2019 Preferred Drug List for Georgia State Health Benefit Plan (SHBP)**, administered by CVS Caremark®, is a guide within select therapeutic categories for plan members and health care providers. This is not an all-inclusive list and does not guarantee coverage. This list represents preferred brand products in CAPS and generic products in lowercase italics. Generics listed in therapeutic categories are for representational purposes only. This list is subject to change.

PLAN MEMBER

SHBP provides you with a prescription benefit program administered by CVS Caremark. Ask your doctor to consider prescribing generics whenever possible. Take this list along when you or a covered family member sees a doctor.

Please note:

- For specific information regarding your prescription benefit coverage and co-pay¹ and co-insurance information, please visit <https://info.caremark.com/shbp> or contact a CVS Caremark Customer Care representative at 844-345-3241.
- In most instances, a brand-name drug for which a generic product becomes available will be designated as a non-preferred option upon release of the generic product to the market.

HEALTH CARE PROVIDER

Your patient is covered under the SHBP pharmacy benefit plan administered by CVS Caremark. As a way to help manage health care costs, authorize generic substitution whenever possible. If you believe a brand-name product is necessary, consider prescribing a preferred brand name drug on this list.

Please note:

- Consider generics as the first line of prescribing.

Tier 1 are generics and shown in *lower case italics*.

Tier 2 are preferred brands and shown in ALL CAPITAL LETTERS

Tier 3 products are non-preferred brands and are listed within the Preferred Options List.

KEY

Symbol	Meaning
*	The preferred options in this list are a broad representation of available treatment options within therapeutic categories and do not necessarily represent clinical equivalency.
§	Generics are available in this class and should be considered the first line of prescribing.
†	Quantity Limits and Prior Authorizations may apply to other corticosteroids not represented on the document.
PA	A Prior authorization is required for coverage.
QL	Quantity Limit may apply to certain strengths and/or doses of this medication.
ST	Step Therapy may apply to some or all strengths of the drug or to certain indications.

FOR YOUR INFORMATION: New-to-market products and new variations of products already in the marketplace may not be added to the preferred drug list immediately. Each product will be evaluated for clinical appropriateness and cost-effectiveness. Recommended additions to the preferred drug list will be presented to the CVS Caremark National Pharmacy and Therapeutics Committee (or other appropriate reviewing body) for review and approval.

¹ Co-pay or co-insurance means the amount a member is required to pay for a prescription in accordance with a Plan in addition to a deductible, if applicable.

² For use in patients previously treated with an HCV regimen containing an NS5A inhibitor (for genotypes 1-6) or sofosbuvir without an NS5A inhibitor (for genotypes 1a or 3).

³ Listing does not include generic CARDIZEM LA.

⁴ Listing does not include generic FORTAMET or GLUMETZA.

⁵ An ACCU-CHEK blood glucose meter may be provided at no charge by the manufacturer to those individuals currently using a meter other than ACCU-CHEK. For more information on how to obtain a blood glucose meter, call: 1-877-418-4746.

⁶ ACCU-CHEK brand test strips are the only preferred options.

⁷ BD ULTRAFINE syringes and needles are the only preferred options.

⁸ Listing reflects the authorized generics for TESTIM and VOGELXO.
