

2025 Preferred Drug List for Georgia State Health Benefit Plan (SHBP)

The **2025 Preferred Drug List for Georgia State Health Benefit Plan (SHBP)** is a guide within select therapeutic categories for clients, plan members and health care providers. **Generics should be considered the first line of prescribing.** If there is no generic available, there may be more than one brand-name medicine to treat a condition. These preferred brand-name medicines are listed to help identify products that are clinically appropriate and cost-effective. Generics listed in therapeutic categories are for representational purposes only. This is not an all-inclusive list and does not guarantee coverage. This list represents brand products in CAPS, branded generics in upper- and lowercase *Italics*, and generic products in lowercase *italics*.

PLAN MEMBER

SHBP provides you with a prescription benefit program that is administered by CVS Caremark®. Ask your doctor to consider prescribing, when medically appropriate, a preferred medicine from this list. Take this list the next time you or a covered family member sees a doctor.

- For specific information regarding your prescription benefit coverage and cost sharing, or if you have additional questions, please visit [Caremark.com/shbp](https://www.caremark.com/shbp) or contact a CVS Caremark Customer Care representative at 844-345-3241.
- When a generic medication that is equivalent to a brand-name drug is released to the market, in most instances, that brand-name drug will be designated as a non-preferred option.

HEALTH CARE PROVIDER

Your patient is covered under the SHBP pharmacy benefit plan. As a way to help manage health care costs, authorize generic substitution whenever possible for those generics which are shown as preferred. If you believe a brand-name product is medically necessary, consider prescribing a preferred brand name on this list.

FOR YOUR INFORMATION: New-to-market products and new variations of products already in the marketplace will not be added to the formulary immediately. Each product will be evaluated for clinical appropriateness and cost-effectiveness. Recommended additions to the formulary will be presented to the CVS Caremark National Pharmacy and Therapeutics Committee (or other appropriate reviewing body) for review and approval. Listed products may be available generically in certain strengths or dosage forms. Dosage forms on this list will be consistent with the category and use where listed.

An ACCU-CHEK or ONETOUCH blood glucose meter may be provided at no charge by the manufacturer to those individuals currently using a meter other than ACCU-CHEK or ONETOUCH. For more information on how to obtain a free blood glucose meter, call: 1-877-418-4746.

BD ULTRAFINE syringes and needles are the only preferred options.

ACCU-CHEK or ONETOUCH brand test strips and lancets are the only preferred options.

Generic prenatal vitamins are the only preferred options.

Generics for FLOVENT DISKUS, FLOVENT HFA are non-preferred and require a Medical Necessity Prior Authorization. Alternative brands in the class should be used.

Quantity Limits and Prior Authorizations may apply to other corticosteroids not represented on the document.

This document contains references to brand-name prescription drugs that are trademarks or registered trademarks of pharmaceutical manufacturers not affiliated with CVS Caremark. Listed products are for informational purposes only and are not intended to replace the clinical judgment of the prescriber. The document is subject to state-specific regulations and rules, including, but not limited to, those regarding generic substitution, controlled substance schedules, preference for brands and mandatory generics whenever applicable.
