

Employee Health Plan

Prescription Drug Benefit Handbook

Your Guide to Quality Healthcare Services and Healthier Living

Welcome to the Cleveland Clinic Employee Health Plan, hereafter referred to as the “Health Benefit Program” (HBP) Prescription Drug Benefit Program. As a Health Benefit Program member, you have access to a comprehensive prescription drug benefit. This *Prescription Drug Benefit Handbook* (hereafter referred to as the *Handbook*) has been developed to help you understand the healthcare services and benefits available to you. It is updated as necessary and is also available on our website at <https://employeehealthplan.clevelandclinic.org>. This *Handbook* is updated as needed. In addition, changes to the Prescription Drug Benefit Program are communicated to members through quarterly *My EHP Health Connection* Bulletins.

This *Handbook* defines your prescription drug coverage. We encourage you to take the time to read this information carefully. You may wish to consider taking this *Handbook* with you when you visit your healthcare provider(s) to aid in the selection of effective, safe, and value-based prescription drug therapy.

You will find helpful information about:

- Where you can get your prescriptions filled;
- The *HBP Prescription Drug Formulary*;
- The Mandatory Maintenance Program;
- Prior Authorization and Formulary Exception Program;
- Quantity Limit and Step Therapy Programs; and
- The Specialty Drug Program

Adherence to your prescribed drug therapy plan is critical to improving your quality of life and decreasing your out-of-pocket expenses in the long run. The HBP looks forward to assisting you with your prescription drug benefit needs.

Cleveland Clinic Health Benefit Program Prescription Drug Benefit October 2021

Prescription Drug Benefit Administration

The Prescription Drug Benefit is administered through CVS/caremark™ under the guidance of the EHP Pharmacy Management Department. You can contact the EHP Pharmacy Management Department Monday through Friday, from 8 a.m. to 4:30 p.m., by calling 216.986.1050, option 4 or 888.246.6648, option 4. In addition, CVS/caremark has a dedicated, toll-free Customer Service phone number that members can call 24 hours a day, seven days a week: 866.804.5876. CVS/caremark Customer Service is also available through email at customerservice@caremark.com.

If your CVS/caremark Prescription card is lost or stolen, contact CVS/caremark at the phone number or email address listed above for a replacement card.

Members can also go to the CVS/caremark website at <https://www.caremark.com> for the following:

- Prescription Refills for CVS/caremark Mail Service
- Order Status
- Pharmacy Locations
- Benefit Coverage
- Request Forms
- Frequently Asked Questions
- 13 Month Drug History
- Additional Health Information

When you call CVS/caremark or visit their website, please have the following information available:

- Member's ID Number
- Member's Date of Birth
- Payment Method

Prescription Drug Benefit Program Overview

The *HBP Prescription Drug Benefit* chart on page 2 of this Handbook summarizes drug categories such as non-specialty generics, preferred brand drugs, non-preferred brands and generics, and specialty brand/generic drugs, as well as deductible and out-of-pocket maximum information. Use this *Handbook* as a resource for information regarding:

- Options for filling your prescription medications;
- The HBP Prescription Drug Benefit guidelines;
- Benefits coverage and clarification;
- Pharmacy Management programs; and
- The *HBP Prescription Drug Formulary*.

Understanding the HBP Prescription Drug Formulary

The medications included in this *Handbook* are chosen by a group of healthcare professionals known as the Pharmacy and Therapeutics (P&T) Committee. This Committee reviews and selects FDA-approved prescription medications for inclusion in the *HBP Prescription Drug Formulary* based on the drug's safety, effectiveness, quality and cost to the benefit program. All medications that have been reviewed but not added to the *HBP Prescription Drug Formulary* or that have not yet been reviewed by the P&T Committee are considered Non-Formulary.

CVS/caremark is a trademark of CVSHealth Inc.

HBP Prescription Drug Benefit

Administered Through CVS/caremark

The Following Is a Summary Overview of the Prescription Drug Benefit for 2021

| Categories | TIER 1 | TIER 2 | TIER 3 | TIER 4 | Drugs & Items at Discounted Rate | Non-Covered Drugs & Items |

Note: Benefit Program Includes: generic oral contraceptives – covered for Marymount HBP participants for clinical appropriateness only under the HBP.

1. Certain specialty medications are included in the Copay Card Assistance Program. Please refer to the Prescription Drug Benefit Handbook.

2. There are 3 options for obtaining medications in the category listed above. The options are:
1. Cleveland Clinic Outpatient Pharmacies listed on pages 5 and 6, 2. Cleveland Clinic Specialty Pharmacy, and 3. CVS/specialty Pharmacy. Specialty Drug prescription orders (first fill and refills) are limited to a one month supply.

3. Diabetic Supplies — All diabetic supplies covered, except for most insulin pumps and insulin pump supplies (with the exception of Omnipod Dash), continuous glucose monitors (with the exception of FreeStyle Libre 2), and continuous glucose monitor supplies (which are covered under the medical benefit). Diabetic

supplies covered under the prescription drug benefit include: needles purchased separately, test strips, lancets, glucose meters, syringes, lancing devices, injection pens, FreeStyle Libre 2, and Omnipod Dash. Members with type 1 diabetes who are under 18 years of age will have no out-of-pocket expense for their insulins and diabetic supplies covered under the prescription drug benefit. Asthma Delivery Devices — Includes spacers used with asthma inhalers.

4. Refers to vitamins that require a prescription from your healthcare provider.

5. Members can use any Cleveland Clinic Outpatient Pharmacy or any CVS store pharmacy for obtaining acute care medications (e.g., single course of antibiotic therapy) and for the first fill of maintenance medications but must use a Cleveland Clinic Outpatient Pharmacy or CVS/caremark Mail Service Program for all maintenance medications.

Take this Handbook with you to all doctor appointments. You are encouraged to share this with your physician when he or she is prescribing your medication to help ensure the most appropriate prescription drug therapy for your needs. Appropriate and cost-effective use of pharmaceutical therapies can be key to a successful strategy for improving individual member outcomes and containing healthcare costs. The Handbook will assist with both of these goals – maintaining the quality of member care while helping to keep the cost of prescription medications affordable.

The P&T Committee reviews and updates the *HBP Prescription Drug Formulary* throughout the year. Medications may be added to or removed from the *HBP Prescription Drug Formulary* during the year. The Cleveland Clinic Health Benefit Program may add medications to the *HBP Prescription Drug Formulary* four times a year. Medications may be removed from the *HBP Prescription Drug Formulary* twice a year, once at the start of the benefit year in January and again at mid-year in July.

Three resources are available to assist you with determining if the drug prescribed for you is covered under your program (another reason why you should take the Handbook with you each time you visit your doctor). The three resources are: this *Handbook*, the *HBP Prescription Drug Formulary* and our website. The website version of the *HBP Prescription Drug Formulary* is updated on a regular basis and contains the most current information regarding the *HBP Prescription Drug Formulary*. You can access this website by logging into <https://employeehealthplan.clevelandclinic.org>. The listing of a drug in the *HBP Prescription Drug Formulary* does not guarantee coverage

Filling Your Prescriptions

Through your Prescription Drug Benefit you have six options for filling your prescription medications. The six options described on the following pages include the Cleveland Clinic Outpatient Pharmacies; Cleveland Clinic Specialty Pharmacy; Cleveland Clinic Home Delivery Pharmacy; the CVS store pharmacies; the CVS/caremark Mail Service Program; and the CVS/specialty Pharmacy.

Cleveland Clinic Outpatient Pharmacies and Home Delivery Pharmacy⁶

HBP members receive a lower percentage co-insurance for their prescriptions by using Cleveland Clinic Outpatient Pharmacies in Ohio and Florida (Option 1), or the Specialty/Home Delivery Pharmacy (Option 2). In addition, a deductible will not be charged for prescriptions filled at these pharmacies with a generic medication. Call the pharmacy hotline at 216.445.MEDS (6337) for answers to your questions and to obtain pharmacist consultation services. You may receive up to a 90-day supply of medication at any of the Cleveland Clinic Outpatient Pharmacies.

You may pick up your prescriptions at any of the locations listed below or you can have your prescription(s) mailed to your home by using the Cleveland Clinic Specialty or Home Delivery Pharmacy. There is a turnaround time of up to ten business days for all home delivery pharmacy orders. **Please Note:** You cannot drop off or pick up prescription orders at the Cleveland Clinic Specialty or Home Delivery Pharmacy. See page 5 for details.

Cleveland Clinic Outpatient Pharmacies – Locations and Hours of Operation

• Cleveland Clinic Outpatient Pharmacies On Main Campus:

| | |
|--|---|
| Euclid Avenue Pharmacy (Parking Garage) | 216.445.MEDS (6337), Fax: 216.445.6015 Toll-free: 866.650.MEDS (6337) Direct Dial: 216.636.0760 Monday–Friday, 7 a.m.–8 p.m. Saturday, Sunday and all Cleveland Clinic Holidays, 9 a.m.–5 p.m. |
| Crile Pharmacy (A Building) | 216.445.MEDS (6337), Fax: 216.445.7403 Toll-free: 866.650.MEDS (6337) Direct Dial: 216.636.0761 Monday–Friday, 8 a.m.–6 p.m. |

6. The Cleveland Clinic Home Delivery Pharmacy is only available to members within the states of Florida, Indiana, Nevada, Ohio, Pennsylvania, and West Virginia. All other members can utilize the CVS/caremark Mail Service Program — see page 7 for details.

Cleveland Clinic Home Delivery Pharmacy Ordering Instructions

The Home Delivery Pharmacy is designed to ship medication directly to your home with **no shipping charge**. By using the Home Delivery Pharmacy, members receive a lower percentage co-insurance for their medications compared to the CVS/caremark Retail Pharmacy Network and can enjoy the convenience of having 90-day supplies of their maintenance medications delivered directly to their home. Here's how you can get started:

1. Go to the MyRefills website at <https://myrefills.clevelandclinic.net> to set up your account, change your billing information and shipping address, or to check on the status of your order.

You may also set up your account by completing a Home Delivery Service Processing Form. You can call the Home Delivery Pharmacy at 216.448.4200 or toll-free at 855.276.0885 to have this form mailed or faxed to you. The form is also available on page 35 of this Handbook. Fill out a Home Delivery Service Processing Form to indicate payment and shipping information for you and your dependents. This information will be kept on file to avoid filling out a form every time you place a prescription order.

Note: You will have to set up your Home Delivery account before the Home Delivery Pharmacy can process and ship your order. In addition, each member that wishes to use the Home Delivery Pharmacy needs a separate account.

2. The Home Delivery Pharmacy receives prescription orders in the following ways:
 - Called in by your physician to 855.276.0885
 - Faxed in by your physician to 216.448.5603
 - e-Scripted by your physician via EPIC (CCF Home Delivery Pharmacy)
 - Requested online through <https://myrefills.clevelandclinic.net>.
 - If you have a hard copy of a new prescription, by law, you cannot fax the prescription to the Home Delivery Pharmacy. Please mail the prescription to:
Cleveland Clinic Home Delivery Pharmacy
9500 Euclid Ave AC5b-137, Cleveland, OH 44195
Phone: 216.448.4200, Fax: 216.448.5603
 - If you are transferring a prescription from a pharmacy other than a Cleveland Clinic Outpatient Pharmacy, please contact the Home Delivery Pharmacy at 216.448.4200 for assistance. **Please note:** Members cannot drop off or pick up their orders at the Home Delivery Pharmacy. Orders will be shipped free of charge to the address you designate.

The Cleveland Clinic Home Delivery Pharmacy is available Monday–Friday from 7 a.m. to 6 p.m. Please allow **ten business days** from the time they **receive** your prescription order(s) for delivery.

Please note: Eligibility is based upon the date the Home Delivery Pharmacy processes your prescription order and not on the day your order was received.

Please call 216.448.4200 for questions or additional information on the Cleveland Clinic Home Delivery Service.

Advantages of Utilizing the Cleveland Clinic Outpatient Pharmacies and Home Delivery Pharmacy

- **Lower cost:** You will pay less for prescription co-insurance. In addition, your deductible will be waived for prescriptions filled with a generic medication at these pharmacies.
- **Convenience:** You may request a 90-day supply of non-specialty medications at any Cleveland Clinic Outpatient Pharmacy. **Note: The prescription must be written for a 90-day supply.**
- **Peace of mind:** You will have access to a toll-free hotline number for questions and pharmacist consultation services during regular business hours.
- **Healthy Choice Coordinated Care program medication reimbursement:** If the EHP member is enrolled in the Healthy Choice Coordinated Care program and is eligible for medication reimbursement, the member must utilize a Cleveland Clinic Outpatient Pharmacy to qualify for medication reimbursement. Medications obtained from the CVS/caremark Mail Service Program are **not** serviced by the Cleveland Clinic Home Delivery Pharmacy or the Cleveland Clinic Specialty Pharmacy. Appropriate documentation must be submitted with the request, which includes both the tax receipt and cash register receipt. Please communicate with your EHP Care Coordinator to learn if your medication qualifies for reimbursement. Additional information can be found in the *Summary Plan Description (SPD)* and the Cleveland Clinic EHP Coordinated Care Incentive FAQ located on the EHP website at <https://employeehealthplan.clevelandclinic.org>.

CVS/caremark Retail Pharmacy Network

Members have the option of picking up acute care prescriptions (such as antibiotic therapy or pain medication) or the first fill of any maintenance medication (limited to a 30-day supply) at any Cleveland Clinic Outpatient Pharmacy or CVS store pharmacy. Refills of maintenance medications must be obtained through one of the three options identified in the Mandatory Maintenance Drug Program section on page 20. A complete list of these pharmacies can be found on the CVS/caremark website at <https://www.caremark.com>. Please note that when using a CVS store pharmacy or the CVS/caremark Mail Service Program, member co-insurance is higher when compared to obtaining your prescriptions from a Cleveland Clinic Outpatient Pharmacy. In addition, prescriptions obtained from a non-Cleveland Clinic Pharmacy are not eligible for reimbursement through the Healthy Choice program (see page 6).

Note: Effective March 1, 2017, members may utilize any Cleveland Clinic Outpatient Pharmacy or any CVS store pharmacy for obtaining acute care prescriptions.

CVS/caremark Mail Service Program

New Prescriptions

CVS/caremark's Mail Service Program provides a way for you to order up to a 90-day supply of maintenance or long-term medication for direct delivery to your home. Follow this easy step-by-step ordering procedure:

1. For new maintenance medications, ask your doctor to write two prescriptions:
 - One, for up to a 90-day supply plus refills, to be ordered through the Mail Service Program; and
 - A second, to be filled immediately at any Cleveland Clinic Outpatient Pharmacy or CVS store pharmacy for use until you receive your prescription from the Mail Service Program.
2. Complete a Mail Service Order Form and send it to CVS/caremark, along with your original prescription(s) and the appropriate payment for each prescription. Be sure to include your **original prescription**, not a photocopy. Forms are available on CVS/caremark's website at <https://www.caremark.com>.
 - You can expect to receive your prescription approximately 14 calendar days after CVS/caremark receives your order.
 - You will receive a new Mail Service Order Form and pre-addressed envelope with each shipment.

Mail Service Refills

Once you have processed a prescription through CVS/caremark, you can obtain refills using the Internet, phone or mail. Please order your prescription three weeks in advance of your current prescription running out. Suggested refill dates will be included on the prescription label you receive from CVS/caremark. You will receive specific instructions related to refills from CVS/caremark.

Prescription Drug Benefit Guidelines

Prescription Drug Benefit – Deductible

The Prescription Drug Benefit has an annual deductible of **\$200 individual/\$400 family**.

Note: The annual deductible is waived if:

- i. The member uses a **Cleveland Clinic Outpatient Pharmacy** to obtain their prescription
and
- ii. The prescription is filled using a **generic** medication.

This waiver is considered a value-added benefit. All prescriptions filled at a non-Cleveland Clinic Pharmacy and all prescriptions filled with a brand name medication at any Cleveland Clinic Outpatient Pharmacy are subject to the annual deductible.

Note: Members who live in an area of the country not serviced by a Cleveland Clinic Outpatient Pharmacy are not eligible for a waiver of the annual pharmacy deductible. The amount you have contributed to your annual deductible resets to \$0 at midnight on December 31 each year. It is not based on a rolling 365 days.

Deductible and Out-of-Pocket Maximum

Your annual deductible must be satisfied before your out-of-pocket pharmacy expenses begin accumulating toward your annual out-of-pocket maximum expense. Not all pharmacy charges apply toward the deductible and out-of-pocket (OOP) maximum expenses. The total charges for medications not covered by the benefit program (e.g., Viagra, Levitra, weight control products, cosmetic agents, etc.) do not apply to either the deductible or out-of-pocket maximum.

In addition, if a generic version of the prescribed brand medication exists, the Prescription Drug Benefit will cover only up to the price of the generic version. If you receive the brand name medication, you are required to pay the price difference between the generic and the brand medication. That difference does not apply to the deductible or the OOP maximum (see Generic Medication Policy below).

Generic Medication Policy

Cleveland Clinic HBP supports and encourages the use of FDA-approved generic medications that are both chemically and therapeutically equivalent to manufacturers' brand name products. Generically equivalent products are safe and effective treatments that offer savings as alternatives to brand name products.

Drugs that are available as Non-Specialty generics (Tier 1) or Specialty generics (Tier 4) are designated in the *HBP Prescription Drug Formulary* with an asterisk (*). Specialty generics will have an (SP) and an asterisk (*) in their entry to denote they are covered at Tier 4. However certain generic medications are considered non-preferred medications. Please see page 15 of this *Handbook*. All other drugs listed are Preferred Non-Specialty Brands (Tier 2) or Specialty (SP) Brand drugs (Tier 4).

If a member or physician requests the brand name drug be dispensed when a generic is available, the participant will be required to pay their generic co-insurance AND the cost difference between the brand name drug price and the generic drug price.

Prior Authorization

Prior authorization is required for coverage of certain medications. These medications are listed in the subsequent pages and in the complete drug listing found in the *HBP Prescription Drug Formulary Handbook*. This list may change during the year due to new drugs being approved by the FDA or as new indications are established for previously approved drugs. A *Prior Authorization, Formulary Exception and Appeal Form* must be completed or sufficient documentation must be submitted by the member's provider before a case will be reviewed. Please refer to the Formulary Failure Review Process on page 12 for information about obtaining a form. Completed forms can be faxed to 216.442.5790.

All prior authorization requests must meet the clinical criteria approved by the Pharmacy and Therapeutics (P&T) Committee before approval is granted. Obtaining medications through a previous insurance plan or from prior use and participation in a manufacturer bridge or assistance program does not supersede EHP medication-specific prior authorization criteria and does not guarantee coverage under the EHP. Members will still be required to meet all of the EHP P&T approved prior authorization criteria for coverage of the requested medication. In some cases, approvals will be given a limited authorization date. If a limited authorization is given, both the member and the physician will receive documentation on when this authorization will expire. Prior authorization approvals are subject to future plan benefit changes or utilization management programs that may impact coverage of the authorized medication. Most requests will be processed within one to two business days from the time of receipt. A response will be faxed to the requesting physician, and the member will be informed of the request and the decision via mail.

Note: Prior authorization approvals are effective from the initial date of the authorization. No refunds or adjustments will be made for previously purchased medications. Depending upon the strength and/or formulation of the drug prescribed by your provider, different quantity limits apply. Please consult the Quantity Level Limits section beginning on page 21 of this *Handbook* for the specific quantity limit that applies to the particular strength/formulation of your medication.

Pharmaceuticals Requiring Prior Authorization

- Abecma (medical benefit; effective date 10/01/21)
- Abilify Maintena
- Absorica LD (effective date 04/01/20)
- Abstral
- Acne Treatments
- Actemra
- Actemra ACTPen
- Acthar gel
- Actiq
- Adacel (under 7 years of age)
- Adakveo (medical benefit; effective date 04/01/20)
- Adcetris
- Adcirca
- Adempas
- Adlyxin
- Admelog (effective date 04/01/18)
- Aemcolo (effective date 07/01/19)
- Afrezza (effective date 04/01/20)
- Aimovig (effective date 06/01/18)
- Ajovy (effective date 10/01/18)
- Akynzeo
- Albenza (effective date 10/01/18)
- Alecensa (effective date 04/01/19)
- Aliqopa (effective date 04/01/19)
- Alunbrig
- Alyq
- Amjevita
- Ampyra
- Angeliq (effective date date 01/01/20)
- Apidra (effective date 03/01/18)
- Aptiom
- Aralast NP (medical benefit)
- Aristada
- Aristada Initio
- Aspirin
- Astagraf
- Aubagio
- Austedo
- Avonex
- Avsola (medical benefit; effective date 07/01/20)
- Ayvakit (effective date 07/01/20)
- Azedra (medical benefit; effective date 07/01/19)
- Bafiertam (effective date 04/01/21)
- Balcoltra
- Balversa (effective date 01/01/20)
- Banzel
- Basaglar (effective date 03/01/18)
- Bavencio (medical benefit)
- Belbuca
- Beleodaq (medical benefit)
- Belrapzo (medical benefit; effective date 04/01/20)
- Bendeka (medical benefit)
- Benlysta
- Beovu (medical benefit; effective date 01/01/20)
- Berinert
- Besponsa (medical benefit)
- Betaseron
- Bethkis
- Bijuva (effective date 01/01/20)
- Blenrep (medical benefit; effective date 04/01/21)
- Blincyto (medical benefit)
- Boniva IV (medical benefit)
- Bosulfif
- Botox (medical benefit)
- Braftovi (effective date 04/01/20)
- Brand name oral contraceptives
- Breyanzi (medical benefit; effective date 10/01/21)
- Brisdelle
- Briviact
- Brineura (medical benefit; effective date 07/01/19)
- Bronchitol (effective date 04/01/21)
- Brukinsa (effective date 04/01/20)
- Butrans
- Bydureon BCise
- Byetta
- Bystolic (effective date 07/01/19)
- Cabenuva (effective date 10/01/21)
- Cablivi (effective date 04/01/20)
- Cabometyx
- Calquence (effective date 04/01/18)
- Caplyta (effective date 07/01/20)
- Caprelsa
- Celebrex
- Cerdelga (effective date 10/01/21)
- Cerezyme
- Cinqair⁷
- Cinryze
- Cinvanti (effective date 04/01/19)
- Climara Pro (effective date 01/01/20)

7. In addition to meeting all other prior authorization criteria, members must also enroll in the corresponding EHP Healthy Choice Coordinated Care program to receive coverage for this medication.

Formulary Failure Review Process

The *HBP Prescription Drug Formulary* is designed to meet the needs of the majority of HBP members. However, if it is determined that you require treatment with a medication not included in the *HBP Prescription Drug Formulary*, your physician may request a review for preferred coverage of a Non-Formulary medication. To start the review process, your physician should call the EHP Pharmacy Management Department at 216.986.1050, option 4 or tollfree at 888.246.6648, option 4 and request a *Prior Authorization, Formulary Exception and Appeal Form*. See sample on page 32. You can also obtain a form online at <https://employeehealthplan.clevelandclinic.org>.

Physicians should complete the form using specific laboratory data, physical exam findings, and other supporting documentation whenever possible in order to document the medical necessity of using a Non-Formulary Medication. Approvals will be granted only if the physician can document ineffectiveness of Formulary alternatives or the reasonable expectation of harm from the use of Formulary medications. A separate form should be submitted for each member for each Non-Formulary drug.

All requests must be in writing and signed by the prescribing physician. If a Non-Formulary brand name drug is approved, the member will be responsible for a 30% co-insurance, with no monthly maximum out-of-pocket. If a Non-Formulary generic drug is approved, the member will be responsible for a 20% co-insurance, with no monthly maximum out-of-pocket. Most requests will be processed within one to two business days from the time of receipt. A response will be faxed to the requesting physician, and we will also inform the member of the request and the decision via mail.

Note: Lower co-insurance will be assessed from the date of authorization. No refunds or adjustments will be made for previously purchased prescriptions. Depending upon the strength and/or formulation of the drug prescribed by your provider, different quantity limits apply. Please consult the Quantity Level Limits section beginning on page 21 of this *Handbook* for the specific quantity limit that applies to the particular strength/formulation of your medication.

Instructions for a Physician on How to Complete the *Prior Authorization, Formulary Exception and Appeal Form*:

1. Complete all information requested.
2. Submit a **separate form** for each member and for each drug you wish to have reviewed.
3. Keep a copy for your records.
4. Fax the form to: Cleveland Clinic Employee Health Plan
EHP Pharmacy Management Department – 216.442.5790
OR
Mail the form to: Cleveland Clinic Employee Health Plan
EHP Pharmacy Management Department
6000 West Creek Road, Suite 20, Independence, Ohio 44131

Exception Process – Once received, requests will be processed within 72 hours. Expedited requests may be made by calling EHP Pharmacy Management at 216.986.1050, option 4, or toll-free at 888.246.6648, option 4. In most cases, these requests will be reviewed and processed the same business day; however, calls received after 4 p.m. or during the weekend will be handled the next business day. One of the following criteria must be met to file an expedited request:

- The drug is necessary to complete a specific course of therapy after discharge from an acute care facility (e.g., hospital, skilled nursing facility).
- The timeframe required for a standard review would compromise the member’s life, health or functional status.
- The drug requires administration in a timeframe that will not be met using the standard process.

Prior Authorization, Formulary Exception and Appeal Form

See page 32 in the back of this *Handbook* for a full size version of the *Prior Authorization, Formulary Exception and Appeal Form*.

Benefits and Coverage Clarification

Detailed benefit coverage clarification information about the HBP Prescription Drug Benefit is included in the following pages. This information complements and further explains the Prescription Drug Benefit chart on page 2 in this *Handbook* and in the *SPD*, Section One: “Getting Started.”

Breast Cancer Prevention Coverage

Under the provisions of the Affordable Care Act mandate regarding breast cancer preventive health services, generic raloxifene and tamoxifen will be covered under the HBP Prescription Drug Benefit at no out-of-pocket expense only for female members 35 years of age or older when accompanied by a valid prescription from the member’s healthcare provider.

Two medications used in the prevention of breast cancer, generic anastrozole and generic exemestane, will also be covered at no member cost, if the member’s individual medical condition meets the criteria set forth by the United States Preventive Services Task Force. Members or providers can obtain the *Aromatase Inhibitor for Breast Cancer Risk Reduction Formulary Exception Form* on page 35 of this *Handbook* to request coverage of these medications at no member cost share.

Contraceptive Coverage

Under the provisions of the Affordable Care Act mandate regarding women's preventive health services, contraceptives will be covered under the HBP Prescription Drug Benefit within the following guidelines:

- Diaphragms, emergency contraceptives, generic oral contraceptives, generic injectables (medroxyprogesterone) will be covered with no out-of-pocket expense for the member. However, a prescription from your health care provider is required.
- Brand name oral contraceptives that are not available generically require prior authorization. If the prior authorization request is approved, the member will not have any out-of-pocket expense. If the prior authorization request is denied, the brand name contraceptive will not be covered.
- Members who receive a brand name formulation of a contraceptive that is available generically will not pay any co-insurance but will be charged the difference in cost between the brand name contraceptive product and the generic alternative.
- Contraceptive products that do not require a prescription to be purchased are not covered under the HBP Prescription Drug Benefit.
- Members who are employed at Marymount Hospital are excluded from this coverage.
- Mirena and other intrauterine devices (IUDs) are not covered under the HBP Prescription Drug Benefit. Rather, they are covered under the medical benefit and no co-payment will be charged.

Oral Medications for Onychomycosis (Nail Fungus)

All oral prescriptions for the treatment of nail fungus are covered at the Non-Preferred rate (see the Prescription Drug Benefit chart on page 2), which is 45% at Cleveland Clinic Outpatient Pharmacies and Home Delivery Service or 50% at all other locations. This Non-Preferred rate is in effect for brand name and generic medications appropriate for treating this condition. Formulary overrides to reimburse 25% at Cleveland Clinic Outpatient Pharmacies or 30% at all other locations are given to members who have this condition and diabetes or some form of peripheral vascular disease (poor blood flow). Overrides are also given to any member who has the fingernail form of this condition; however, only one course of treatment will be covered at the Formulary rate in a lifetime. To obtain an override, please have your healthcare provider complete and submit a *Prior Authorization, Formulary Exception and Appeal Form*.

Over-The-Counter (OTC) Medications

Certain over-the-counter (OTC) medications that are available without a prescription are covered under the Prescription Drug Benefit.

The member must have a prescription from his or her provider and fill the prescription at a Cleveland Clinic or CVS/caremark Retail Network Pharmacy. The list includes:

- **Aspirin:** Prior authorization required
- **Iron Supplements:** Covered at 100% for members age 0–12 months
- **Oral Fluoride Products:** Covered at 100% for members age 0–5 years
- **Folic Acid:** Covered at 100% for **female** members age 40 and under
- **Tobacco Cessation Medications:**
 - Must be prescribed by an EHP approved Tobacco Cessation provider (in person) or EHP Tobacco Cessation eCoaching program provider (online only)
 - Coverage includes generic bupropion, brand Chantix, generic nicotine gum, generic nicotine lozenges, and generic nicotine patches
 - **Prescriptions must be filled at any Cleveland Clinic Outpatient Pharmacy**

All other OTC medications are not covered. When an OTC drug is available in the identical strength and dosage form as the prescription medication, and is approved for the same indications, the prescription drug is usually not covered by the HBP. Providers should recommend the equivalent OTC product to the member.

Pre-exposure prophylaxis (PrEP) Coverage

Under the provisions of the Affordable Care Act mandate regarding PrEP treatment, medications used in members at high risk for HIV infection will be provided at no member cost, if the use is for PrEP. If the use is for the treatment of HIV infection or for post-exposure prophylaxis, the member's co-payment will be adjusted upward to maximize the financial benefit offered by the pharmaceutical manufacturer as part of the Specialty Drug Copay Card Assistance Program. Generic Truvada will remain the preferred agent, with Descovy being the alternative product. Both generic Truvada and Descovy will continue to require prior authorization. Coverage requests approved for PrEP will be coded in the pharmacy claims adjudication system such that the member's annual pharmacy deductible and any co-insurance are waived.

Statin Medications for Primary Prevention of Cardiovascular Disease

Under the provisions of the Affordable Care Act mandate regarding cardiovascular disease preventive health services, generic formulary low to moderate dose statins will be covered under the HBP Prescription Drug Benefit at no member out-of-pocket expense within the following guidelines:

1. Members are between 40 and 75 years of age.
2. Members on generic formulary low to moderate dose statins require prior authorization in order to receive their medication at no member out-of-pocket expense. To begin this process, please have the prescribing provider submit a *USPSTF Copay Free Statin Coverage Request Form* to the Employee Health Plan Pharmacy Management Department (see page 33). If the prior authorization request is approved, the member will not have any out-of-pocket expense. If the prior authorization request is denied, the standard plan benefits will apply regarding statin coverage.
3. Members who receive a brand name formulation of a formulary statin that is available generically will not pay any co-insurance but will be charged the difference in cost between the brand name statin product and the generic alternative.
4. For members who do not go through the prior authorization process, the standard plan benefits will apply regarding statin coverage.
5. Statin products that do not require a prescription to be purchased are not covered under the HBP Prescription Drug Benefit (i.e., red yeast rice).

Non-Preferred Generic Medications

Generic formulations of the medications listed below are considered non-preferred medications and are subject to a 50% member co-insurance with no monthly maximum out-of-pocket expense:

- | | | |
|--|--------------------------------------|-------------------------------|
| • Abilify oral solution (covered for members \leq 12 years of age) | • Daypro | • Retin-A cream |
| • Actigall | • Detrol LA 4 mg | • Rozerem |
| • Ambien CR 12.5 mg | • Diovan 320 mg | • Sorilux Foam |
| • Astelin | • Ecoza cream | • Sporanox capsules |
| • Astepro | • Edular | • Taclonex ointment |
| • Atacand | • Enstilar Foam | • Taclonex Topical Suspension |
| • Atacand HCT | • Exforge HCT | • Tekturna |
| • Avalide | • Fentora | • Tekturna HCT |
| • Avita cream | • Focalin XR ⁸ | • Teveten |
| • Azor | • Frova | • Tribenzor |
| • Benicar | • Hectorol | • Twynsta |
| • Benicar HCT | • Hydrocortisone valerate 0.2% cream | • Uloric |
| • Boniva 150 mg tabs | • Inderal LA | • Vectical Ointment |
| • Celebrex | • Intermezzo | • Vytorin |
| • Concerta ⁸ | • Lamisil | • Zemplar |
| • Coreg CR | • Lialda | • Zolpimist |
| • Corgard | • Micardis HCT | |
| • Cymbalta | • Pristiq | |
| | • Qudexy XR | |

8. EHP members under the age of 20 who are utilizing generic formulations of Concerta and Focalin XR will continue to pay a Tier 1 co-insurance.

Lifestyle Medications

The medications listed below are able to be purchased such that members pay 100% co-insurance on the discounted price of the medication. The member's out of pocket expense does not apply toward their annual pharmacy deductible nor their annual out-of-pocket maximum.

- Acticlate
- Addyi
- Caverject
- Cialis
- Clomid (males only)
- Cosmetic Agents

Pharmacy Management Programs

Mandatory Maintenance Drug Program

Members may use any of the Cleveland Clinic Outpatient Pharmacies, or a CVS store pharmacy for obtaining prescription medications for an immediate need, a one-time prescription medication (example: antibiotics), or the **first fill** of a maintenance medication. Maintenance medications include drugs taken regularly to treat chronic medical conditions such as asthma, diabetes, or high blood pressure, as well as drugs taken on a long-term basis, such as contraceptives.

Refills of all maintenance drugs must be obtained through one of the following three options:

- **Cleveland Clinic Pharmacy Home Delivery Service** – Home delivery enables you to order up to a 90-day supply of your maintenance medication refill prescriptions, which are delivered to your home, saving you a trip to the pharmacy. There is no extra charge for home delivery and you will save 5% on your co-insurance compared to using the CVS/caremark Mail Service Program (see page 7 for details).
- **Cleveland Clinic Outpatient Pharmacies** – Drop off your maintenance prescriptions for refill at any of the 19 Cleveland Clinic Outpatient Pharmacy locations in northeast Ohio or the Weston Pharmacy in Florida. You can obtain up to a 90-day supply of medication and you will save 5% on your co-insurance (see page 3 for details).
- **CVS/caremark Mail Service Program** – You can order up to a 90-day supply of your maintenance medication prescription to be delivered to your home, but will not get the same 5% discount available when you order your prescription from a Cleveland Clinic Outpatient Pharmacy or the Home Delivery Pharmacy.

In addition, some maintenance medications must be refilled for three month supplies at a Cleveland Clinic Outpatient Pharmacy, through the Cleveland Clinic Home Delivery Pharmacy, or through the CVS/caremark Mail Service in order to be covered. A complete list of these maintenance medications can be found at <https://employeehealthplan.clevelandclinic.org>.

Medications Limited by Provider Specialty

The continual development of complex drug therapy options requires that certain medications be prescribed by an appropriate specialist (e.g., cardiologist, neurologist, oncologist) to ensure appropriate use. If these medications are not prescribed by an approved specialist, prior authorization (see page 9) must be obtained for coverage under the Prescription Drug Benefit. The first medication included in this category is **Multaq**, which must be prescribed by a cardiologist. Additional medications limited by provider specialty (prescription written by a specialist) may be added to the *HBP Prescription Drug Formulary* in the future. Prescriptions written by non-specialists will need prior authorization. Please consult the *HBP Prescription Drug Formulary Handbook* to determine if your medication is limited by provider specialty.

Quantity Level Limits

Quantity level limits are applied to medications for various reasons. For example, to prevent medication misuse or abuse, to promote adherence to an appropriate course of therapy for reasons of efficacy and safety, and to prevent the stockpiling of medication. The Cleveland Clinic Health Benefit Program will continue to monitor drug utilization to possibly expand quantity level limits for other medications.

- Abilify: 1 tablet per day
- Absorica LD: 2 capsules per day
- Abstral: 4 tablets per day; restricted to 30-day supply
- Actemra ACTPen: 4 auto-injector pens per 28 days

Split Fill Program

HBP members **beginning** therapy with any of the medications listed below will be limited to a 15-day supply for the initial two months of therapy to ensure the member tolerates the medication:

- Afinitor
- Bosulif
- Erivedge
- Gleevec
- Imbruvica
- Inlyta
- Jakafi
- Nexavar
- Rubraca
- Sprycel
- Sutent
- Tarceva
- Targretin
- Tassigna
- Verzenio
- Votrient
- Xtandi
- Zelboraf
- Zolanza
- Zytiga

Step Therapy Program

The Step Therapy Program promotes the first-line use of effective, value-based medications over higher cost alternatives. Prescriptions for equally effective – but less expensive – generic medications for covered conditions will be approved with preferred rates. The Step Therapy Program stops payment of prescription claims for higher cost alternative medications that have not received prior authorization. The following medications are included in the Step Therapy Program:

| Medication(s) Requiring Step Therapy ⁹ | Formulary Alternatives(s) |
|--|--|
| Acne Myorisan Zenatane | Claravis |
| Antidepressants Pristiq | Venlafaxine capsules, venlafaxine ER capsules |
| Blood Pressure Medication Atacand Benicar HCT Micardis Atacand HCT Diovan Micardis HCT Avalide Diovan HCT Tekturna Avapro Edarbi Tekturna HCT Benicar Edarbyclor Teveten | Lisinopril Lisinopril/HCTZ Losartan Losartan HCT |
| Cholesterol Lowering Medications Lescol extended-release Livalo Zypitamag Lescol immediate-release Nikita | Atorvastatin, lovastatin, pravastatin, rosuvastatin, simvastatin |
| Diabetes¹⁰ Alogliptin Januvia Kombiglyze XR Alogliptin/metformin Glyxambi Nesina Alogliptin/pioglitazone Jentadueto Onglyza Janumet Jentadueto XR Oseni Janumet XR Kazano Tradjenta | Metformin |
| Gastrointestinal Medications Delzicol Giazio Pentasa Dipentum Lialda | Balsalazide, mesalamine ER 0.375 mg capsules, mesalamine 800 mg tablets, sulfasalazine |
| Growth Hormone Humatrope Omnitrope Zomacton Nutropin Saizen Nutropin AQ Tev-Tropin | Genotropin, Norditropin |
| Immune Modulators Amjevita Kineret Stelara Cimzia Orencia Xeljanz Enbrel Remicade Xeljanz XR Erelzi Renflexis Inflectra Simponi (subcutaneous) | Humira |
| Stimulants Nuvigil | Modafinil |

9. During the benefit year, new medications may be added to this list. Members will be notified before these changes take effect.

10. Alogliptin and alogliptin/metformin are the preferred DPP-IV inhibitor products under the EHP prescription drug benefit.

Specialty Drug Benefit

Specialty brand and generic drugs can be obtained from any Cleveland Clinic Outpatient Pharmacy including the Specialty Pharmacy, or from the CVS/specialty Pharmacy. Members enjoy lower out-of-pocket expenses by using a Cleveland Clinic Outpatient Pharmacy to obtain their specialty drugs. Members with certain chronic conditions may wish to participate in the Accordant Rare Disease Management Program. Please refer to your SPD for more details.

Members will be responsible for their co-insurance for all drugs that are determined to be self-administrable by the member. Self-administrable medications are defined as medications that are typically administered orally or subcutaneously (SC) and have patient instruction for use in the package insert (PI). Some intramuscular injections are also considered self-administrable due to frequency of injection and PI instructions for the patient on how to self-administer the drug. A co-insurance applies at all locations where the drug can be obtained. If a self-administrable drug is administered in a doctor's office, the member will be responsible for the office co-payment as well as the drug co-insurance. If administered in the physician's office, the co-insurance is not applied to the pharmacy deductible or out-of-pocket maximum, unless stated otherwise below as being a medication that is white-bagged. White-bagging refers to a specialty pharmaceutical, that is not intended to be self-administered, being shipped or delivered by an in-network specialty pharmacy directly to the location where it will be administered by the member's chosen health care provider. **Most Medications that are not self-administered are covered under the medical benefit.**

Specialty drugs CANNOT be obtained through the CVS/caremark Retail Pharmacy Network. There are two options for obtaining these medications:

1. Cleveland Clinic Specialty Pharmacy or Cleveland Clinic Outpatient Pharmacies in Ohio and Florida
2. CVS/specialty Pharmacy – toll-free at 800.237.2767

11. Not covered as first line therapy. Use Humira.

12. Covered under the prescription benefit and delivered by specialty pharmacy to member's health care provider.

13. Not covered as first line therapy. Use Genotropin or Norditropin.

14. Not covered as first line therapy. Use Repatha.

Specialty Drug Copay Card Assistance Program

The Cleveland Clinic Employee Health Plan reserves the right to change/adjust specialty drug copays to meet the needs of a manufacturer-sponsored variable member copay assistance program. As such, certain specialty medications require the use of the manufacturer's copay assistance card. For those specialty medications included in the Copay Card Assistance Program, the member's copay will be adjusted upward to maximize the financial benefit offered by the pharmaceutical manufacturer, but this adjustment will be completely offset by the copay card, such that members will have **no additional out of pocket expense above and beyond what they are currently paying for their specialty medication**. The value of the manufacturer's copay card will apply to your annual deductible but will not apply to your annual out of pocket maximum.

In the event the manufacturer discontinues a specialty medication's copay assistance card, the member's cost share will revert back to the benefit design outlined on page 2 of the *Handbook*.

Please refer to the EHP Pharmacy Benefits link on the Cleveland Clinic Employee Health Plan's website for updates on medications included in the Copay Card Assistance Program. If you have any questions, please contact EHP Pharmacy Management at 216.986.1050, option 4.

Payroll Deduction

I understand that my badge is the property of the Cleveland Clinic Foundation and must be returned to the ID badge Department upon termination of employment or upon request by the Cleveland Clinic Foundation. I further understand that I will be responsible for all charges made with this badge and I hereby authorize those charges to be deducted from my paycheck. Charges made during a payroll period will be reflected as "Pharmacy" on the corresponding paycheck stub. Furthermore, I agree to protect this badge from unauthorized use and to pay Cleveland Clinic Pharmacies any outstanding balance upon termination of my employment or withdrawal from this program. I recognize that any unauthorized and/or illegal use of any badge is classified as a major infraction and will be grounds for disciplinary action in accordance with CCF Policy 121.

I have read the above information and agree to all of the above and authorize use of payroll deduction for the entire amount due.

Employee Signature: _____ Date: ____/____/____

*Note: Any amount of \$0-\$99.99 will be deducted in 1 pay cycle. Any amount of \$100.00 or more will be deducted over 6 pay cycles.

Every life deserves world class care.

9500 Euclid Ave., Cleveland, OH 44195

Cleveland Clinic is a nonprofit, multispecialty academic medical center integrating outpatient and hospital care with research and education for better patient outcomes and experience. More than 4,500 staff physicians and researchers provide services through 20 patient-centered institutes. Cleveland Clinic is a 6,026-bed healthcare system with a main campus in Cleveland, 18 hospitals and over 220 outpatient locations. The health system includes five hospitals in Southeast Florida with more than 1,000 beds, a medical center for brain health in Las Vegas, a sports and executive health center in Toronto and a 364-bed hospital in Abu Dhabi. Cleveland Clinic London, a 184-bed hospital, will open in 2022. Cleveland Clinic is currently ranked as one of the nation's top hospitals by *U.S. News & World Report*. clevelandclinic.org
