

Health Savings Plan (HSP) and Hybrid Plan Preventive Therapy Drug List

Keeping in good health depends on taking and finishing your preventive medications just as your doctor prescribed. Your benefit plan wants to make this as easy and affordable for you as possible. That's why you do not need to meet a deductible for preventive prescriptions. Instead, your prescription benefits are paid right away for all medications on the CVS Caremark® Preventive Drug List. **You'll pay 20% of the cost of most preventive medications and there will be no cost to you for generic medicines on this list. Also, all drugs for diabetes, including insulin and diabetes supplies, are covered at 100% (subject to Value Formulary coverage).** This no-deductible preventive drug list not only saves you money but is an important step in helping prevent more serious health issues in the future. Check **Caremark.com** for specific drug costs.
