

STATE EMPLOYEES' PRESCRIPTION DRUG PLAN

CVS CAREMARK® MAINTENANCE DRUG LIST

EFFECTIVE AS OF 06/05/2019

Maintenance drugs are prescriptions commonly used to treat conditions that are considered chronic or long-term. These conditions usually require regular, daily use of medicines. Examples of maintenance drugs are those used to treat high blood pressure, heart disease, asthma and diabetes.

For the PPO Plan only: You may fill maintenance medications at a participating 30-day retail pharmacy three times. After the third fill, you must use the CVS Caremark Mail Service Pharmacy or a participating 90-Day Maintenance at Retail pharmacy for the maintenance medications to be covered by the PPO Plan. You will be responsible for the entire cost of maintenance medications after the third fill at a 30-day retail pharmacy.

Please note: This list (1) does not include all maintenance medications, (2) is subject to change, (3) may include medications not covered by your health plan, (4) may include medications that are subject to additional coverage rules as determined by your health plan, and (5) includes the generic name where a generic is available. If no generic is available, then the brand name appears. This list represents brand-name products in CAPS and generic products in lower-case italics.

All drugs are subject to the appropriate member cost share (i.e., copayment or coinsurance¹). If you have questions about the State Employees' Prescription Drug Plan, please log on to your account at Caremark.com or call Customer Care 24/7 at 1-888-766-5490.
