## BASIC OPTION

Effective January 1, 2024, selected drugs will no longer be covered under Basic Option. These non-covered drugs have available covered options in the same therapeutic class.

Basic option members taking a non-covered drug on or after January 1, 2024 should expect to pay the **full cost** of the prescription.

## FORMULARY EXCEPTION PROCESS

The Formulary Exception process allows members to apply for coverage of a non-covered drug if they have tried and failed the covered drug(s). This allows the member coverage of the non-covered drug at a tier 3 cost share if the exception is approved. Remember any applicable prior approval criteria must also be met in order for coverage to be provided. **You can download the prior approval form for the drug [here](#).**

**Click on the category drug class for the drug requested below and complete the form.**
